Jose Manuel Quiros Chaves

Address: Atenas, Calle la Guaria. | Phone number: 8739-4231 | Email: jqchaves1928@gmail.com |
Nationality: Costa Rican. | National ID number: 208770465

PROFESSIONAL PROFILE

Developer specialized in web applications, websites, and desktop applications. Expert in the end-to-end development of technological solutions, from planning to implementation, with experience in both open-source and proprietary environments. Strong ability to solve complex problems, optimize systems, and integrate artificial intelligence to enhance efficiency and security. Applies cybersecurity best practices in every project, ensuring innovative, scalable, and reliable solutions.

KEY SKILLS

- **Soft Skills:**
  - Effective communication
  - Adaptability to change
  - Responsibility and reliability
  - Teamwork and collaboration
  - Critical thinking and problem-solving

- Technical Skills:
  - **Languages:** Python, C#, Java, JavaScript, SQL, CSS3, HTML5
  - **Frameworks / Technologies:** ASP.NET Core, React.js, Razor Pages, Bootstrap
  - **Tools:** GitHub, Swagger, Microsoft Excel, Ollama (local AI)
  - **Methodologies:** MVC, CRUD, OOP, Security testing

WORK EXPERIENCE

2025

- Indefinite Term Contract, NETCOM - Instituto Costarricense de Acueductos y Alcantarillados AYA, (13/01/2025 - *Present*).
  - Management of CRM processes and OPEN systems, focused on billing, anomaly detection, and the registration, tracking, and resolution of Service Orders.
  - Multichannel customer support (**multiskills role**), handling user interactions via phone calls, live chat, and currently in training for email support.
  - Handling customer inquiries, complaints, and service requests related to aqueduct and sewer services, ensuring high levels of customer satisfaction.
  - Providing clear and accurate information regarding procedures, processes, and institutional policies.
  - Coordinating with internal departments to ensure efficient service delivery and timely resolution of user needs.

- Providing operational support and staff coverage across different branches as required.

2024

- 320 Hour Professional Internship, Asamblea Legislativa de Costa Rica Information Technology Department.
  - Driver updates.
  - Inventory management.
  - User support.

  Server maintenance and network management.

2023

- 90 Hour Work Internship, Municipalidad de Atenas
  Information Technology Department.
  - User support.
  - Maintenance of desktop and laptop computer hardware.
  - System updates, including operating systems and drivers, software installation, and network configuration.

2022

- Personal Technical Support Business (02/20/2022 – Present)
  - Preventive and corrective maintenance of technological equipment and IT support services.
  - Programming in languages such as C#, .NET, CSS3, JavaScript, Python, SQL, and others.
  - Web design.
  - Video production and editing.

SOFTWARE DEVELOPMENT PROJECTS (Practical Experience)

Role: Developer / Junior Architect / Project Lead

Python

- Introductory and intermediate-level scripts using OOP, libraries, arrays, and dictionaries.
- Report generation with images and automated data validation.
- Email automation and cybersecurity support.
- Implementation of a customized local AI model using Ollama.

C# / ASP.NET Core – SQL Server – REST API – Razor

- Student Enrollment System (MVC + SQL Server + Swagger).
- Merchant Ship Control System: route and product assignment.
- Vehicle Management Catalog: full CRUD implementation.
- Restaurant Menu with shopping cart (team project, GitHub).
- Vaccination Center: enhancement of an existing system.

- Clinic Directory: comprehensive information management.
- SpikedTech Enterprise Software with integrated AI.
- Razor syntax documentation and development.

Java

- Introductory OOP projects: number validation, sorting algorithms, and verifications.
- Zoo Management System: animal management, arrays, and reports.
- Banking System: account management and inter-account transactions.
- UML Diagram development for all Java projects.

HTML5 / CSS3 / JavaScript / React.js

- Tourism Company Website (responsive design).
- Digital Wedding Invitation with RSVP form.
- Website for the TASC Team:
  - Designed and developed a website for the TASC team.
  - Used modern technologies and best practices to create an optimized and engaging user experience.
  - Project duration: approximately 25 hours.
- Interactive PowerPoint-style presentation for classes.
- Multi-Employee Registration System for small businesses.
- GASAN Website: scalable design with contact form.
- Gym Application: export functionality to Excel and Google Sheets.
- SpikedTech Website: service catalog with integrated WhatsApp.
- Digital Cybersecurity Magazine (jose-m-quiros.github.io/Revista-Digital-Fidelitas).
- Digital Cybersecurity Alert (jose-m-quiros.github.io/proyecto-fidelitas-anuncio-publicitario-ciberseguridad).
- Learning Center: course tracking and personal progress management.

EDUCATION

2025 Bachelor’s degree in computer security engineering, Universidad Fidélitas – In progress

2024	High School Diploma in General Basic Education, Colegio Técnico Profesional de Atenas, Atenas, Alajuela.
	Technical Degree in Web Development, Colegio Técnico Profesional de Atenas, Atenas, Alajuela.
2022	Completion and award of academic certifications, Universidad Técnica Nacional, Atenas, Alajuela.
2021	Completion of General Basic Education – Third Cycle, Colegio Técnico Profesional de Atenas, Atenas, Alajuela.

COURSES AND CERTIFICATIONS

- 2025 - 2026 - Cybersecurity Program, IBM SkillsBuild, 71% completed
- 2025 – Python Essentials 2, Cisco Systems (40 hours).
- 2025 – CCNA: Introduction to Networks, Cisco Systems (120 hours).
